Test duration

60 min

Passing score

70%

Issued

28/05/2026

Executive summary

The course "ISO 14001:2015 Auditor/Lead Auditor" is designed to train professionals skilled in conducting audits within organizations implementing an Environmental Management System in compliance with ISO 14001:2015. Through a targeted learning path, participants gain in-depth understanding of key standard elements, audit techniques based on ISO 19011 guidelines, and certification procedures according to ISO/IEC 17021-1. The course covers topics such as assessing environmental compliance obligations, applying the life-cycle perspective, and planning effective internal audit programs, using analysis of real scenarios and high-difficulty questions. Participants will be equipped to perform accurate and effective audits, helping organizations achieve continuous environmental performance improvement and regulatory compliance. The training employs interactive methods and includes a final assessment requiring 70% pass mark to validate acquired skills. The 60-minute duration provides focused technical knowledge for environmental auditors and lead auditors operating in diverse and complex settings.

Certification process

- Registration or login to the Academy platform.
- Completion of the final course examination only. Any training or preparation may be completed externally or through other channels.
- The test questions refer to the objectives, skills and topics described in this technical sheet.
- Assessment of the result, possible validation and certificate issuance according to the rules applicable to the course.

Important note

On Academy, candidates take only the final course examination. Any training or preparation activity may be delivered externally or through other channels. The test questions refer to the topics described in this technical sheet and in the course syllabus summary.

Syllabus summary

ISO 14001:2015; ISO 19011; ISO/IEC 17021-1
