1. Course identity, purpose and scope

The "RSPP Employer (Owner-Manager) – Training Course (pursuant to Italian Legislative Decree 81/08)" is tailored to equip employers with the specific expertise to directly fulfill the role of the Prevention and Protection Service Manager (RSPP). This focused training addresses the current laws on occupational health and safety, emphasizing the employer's responsibilities under Legislative Decree 81/2008 and subsequent amendments. Participants will gain practical skills for identifying, assessing, and managing risks within various workplace environments, including the application of operational procedures to prevent accidents and occupational illnesses. The course also covers topics such as risk reporting by workers' representatives, emergency management, coordination of temporary work sites, and compliance related to self-employed workers and multiple contracts. Through an interactive and scenario-based learning approach, employers will strengthen their practical application of regulatory concepts to ensure a safe workplace aligned with legal requirements.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

Legislative Decree 81/2008 (Consolidated Workplace Safety Act) and subsequent amendments + Italian State-Regions Agreement on occupational health and safety training (Employer acting as RSPP)

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.
