Test duration

260 min

Passing score

70%

Issued

28/05/2026

Executive summary

The "ISO/IEC 27001:2022 Auditor/Lead Auditor" course is designed to train professionals capable of conducting effective audits of Information Security Management Systems (ISMS) according to the international standard ISO/IEC 27001:2022. Participants will develop technical skills in applying auditing principles, identifying nonconformities, and assessing risks related to information security. The program also covers the guidelines of ISO 19011 and the requirements of ISO/IEC 17021-1 to ensure compliant and recognized audits. Through practical exercises, case studies, and simulations, candidates learn to plan, conduct, and report audits professionally and rigorously. The course targets cybersecurity professionals, consultants, internal and external auditors, and system managers aiming to become qualified auditors or lead auditors. Upon completion, participants will be able to evaluate the effectiveness of security measures, develop risk-based audit plans, and support organizations in maintaining compliance with international standards. The comprehensive training lasts 260 minutes and includes a final learning assessment with a multiple-choice test, requiring a minimum pass rate of 70%.

Certification process

- Registration or login to the Academy platform.
- Completion of the final course examination only. Any training or preparation may be completed externally or through other channels.
- The test questions refer to the objectives, skills and topics described in this technical sheet.
- Assessment of the result, possible validation and certificate issuance according to the rules applicable to the course.

Important note

On Academy, candidates take only the final course examination. Any training or preparation activity may be delivered externally or through other channels. The test questions refer to the topics described in this technical sheet and in the course syllabus summary.

Syllabus summary

ISO/IEC 27001:2022; ISO 19011; ISO/IEC 17021-1

Learning Objectives

- Train auditors competent in conducting audits according to ISO/IEC 27001:2022
- Apply auditing guidelines and methodologies compliant with ISO 19011 and ISO/IEC 17021-1
- Identify and classify nonconformities
