## 1. Course identity, purpose and scope

The "Halal Sector-Specific Training – Food (meat, beverages, ready-to-eat), Cosmetics, Textile and Finance" course is designed to deliver in-depth and up-to-date knowledge about Halal requirements tailored to various industrial sectors. It focuses on compliance with OIC/SMIIC, GSO standards, alongside guidelines such as ISO 22000 for the food sector and ISO 22716 for cosmetics, with particular emphasis on Shariah-compliant finance principles. The curriculum covers segregation and cross-contamination prevention, supply chain traceability, material controls, as well as risk and compliance management within complex production environments. This course addresses professionals operating in food, cosmetic, textile, and financial companies seeking to implement or enhance their Halal management systems. The teaching approach includes focused lectures supported by practical exercises and case studies to assess learning effectiveness. It equips participants with practical tools to tackle technical and managerial challenges in producing and distributing Halal products, aiding regulatory adherence and market competitiveness on a global scale.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

## 2. Normative, regulatory and technical references

OIC/SMIIC 1:2019 + GSO 2055-1:2015 (Halal food requirements) + segregation/cross-contamination and supply-chain traceability principles + ISO 22000 (FSMS/HACCP) for the food sector + ISO 22716 (Cosmetics GMP) for cosmetics + controls on materials, processing aids and critical substances for textile + Shariah-compliance principles for Islamic finance (AAOIFI Shariah Standards / IFSB guidance)

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

## 3. Learning architecture and assessment system
