Mobile Elevating Work Platforms (MEWP/PLE) – Operator
Qualification (Annex III)

Course code
PLE_LA

Test duration
45 min

Passing score
70%

Issued
28/05/2026

Executive summary

The course "Mobile Elevating Work Platforms (MEWP/PLE) – Operator Qualification (Annex III)" is designed to provide operators with the necessary knowledge for the safe and efficient use of mobile elevating work platforms, in compliance with Legislative Decree 81/2008 and the Italian State-Regions Agreement of April 17, 2025. The training path includes a theory-technical module covering relevant regulations, characteristics of various types of MEWPs, inspection and maintenance procedures, and specific risks associated with their use. The practical module allows participants to gain hands-on experience with controls, movement operations, and emergency procedures on different types of platforms including scissor lifts, boom lifts, vertical mast lifts, and truck-mounted platforms. Key safety aspects such as the proper use of personal protective equipment (PPE), clearances from power lines, and communication with spotters are emphasized throughout the course. Upon successful completion, operators are qualified to safely operate MEWPs on construction sites and industrial plants, significantly minimizing the risk of accidents related to these machines.

Certification process

- Registration or login to the Academy platform.
- Completion of the final course examination only. Any training or preparation may be completed externally or through other channels.
- The test questions refer to the objectives, skills and topics described in this technical sheet.
- Assessment of the result, possible validation and certificate issuance according to the rules applicable to the course.

Important note

On Academy, candidates take only the final course examination. Any training or preparation activity may be delivered externally or through other channels. The test questions refer to the topics described in this technical sheet and in the course syllabus summary.

Syllabus summary

Legislative Decree 81/2008, art. 73(5) + Italian State-Regions Agreement 17/04/2025 (Rep. Acts No. 59/CSR, Official Gazette No. 119 of 24/05/2025) – MEWP/PLE training path (theory-technical module + practical module)

Learning Objectives

- Provide theoretical and practical knowledge for safe MEWP use
- Present relevant regulations and legal requirements

Certification Bodies Management systems

IFZA Business Park - Building A2 - Nadd Hessa - Dubai Silicon Oasis
United Arab Emirates

Mobile Elevating Work Platforms (MEWP/PLE) –
Operator Qualification (Annex III)

- Train correct operation and maintenance of platforms

Skills Acquired

- Identify specific risks related to MEWPs
- Conduct preliminary checks and safe lifting operations
- Manage emergency situations and correctly use PPE

Target Audience

- Operators assigned to MEWP use in construction sites, plants, and maintenance activities

Prerequisites

- Minimum age 18
- Basic knowledge of mechanical work tools

Program

- Regulations and responsibilities
- Types of MEWPs and components
- Inspection and control procedures
- Operational techniques and safety
- Correct use of PPE and communication
- Emergency procedures

Teaching Methodology

- Face-to-face lessons
- Practical demonstrations
- Hands-on exercises

Assessment Methods

- Theoretical test with multiple-choice questions (pass mark 70%)
- Practical evaluation on controls and safety procedures

Duration

- 45 minutes (theory and practice modules)

Certification

- MEWP operator qualification certificate according to Annex III current legislation

Expected Outcomes

- Qualified operator for safe use of mobile elevating work platforms in various workplaces
