1. Course identity, purpose and scope

The course "Internal Auditor for Quality Management System – Aerospace, Space and Defence (ASD-STAN EN 9100:2018)" is designed to train professionals capable of effectively conducting internal audits within organizations operating in the aerospace, space, and defence sectors. Based on the ASD-STAN EN 9100:2018 standard, which integrates ISO 9001:2015 requirements with sector-specific additions, the program provides in-depth skills to assess the conformity and effectiveness of the Quality Management System. The course covers audit principles and techniques in accordance with ISO 19011:2018, with a particular focus on planning, checklist use, evidence management, and handling findings and corrective actions (CAPA). Its concise duration supports focused and targeted learning, ideal for professionals already active in the field or seeking quick specialization. Upon completion, participants are able to organize and execute internal audits, contributing to continuous improvement and compliance within their organizations in the aerospace sector.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

ASD-STAN EN 9100:2018 (aerospace QMS, based on ISO 9001:2015 with additional requirements) + ISO 19011:2018 (guidelines for auditing management systems) + internal audit principles and techniques: planning, checklists, evidence handling, findings and corrective actions (CAPA)

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 45 min
- final exam: 30 questions selected from the bank
- passing threshold: 70%

- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Learning Objectives

To train competent internal auditors according to ASD-STAN EN 9100:2018, able to conduct quality system audits in aerospace, space, and defence sectors.

Skills Acquired

- Knowledge of ASD-STAN EN 9100:2018 standard and additional requirements.
- Application of ISO 19011:2018 guidelines for audits.
- Planning and conducting internal audits.
- Managing evidence, findings, and corrective actions (CAPA).

Target Audience

Professionals working or intending to work as internal auditors in aerospace, space, or defence companies.

Prerequisites

Basic knowledge of Quality Management Systems and interest in ASD-STAN EN 9100:2018 standards.

Program

- Introduction to ASD-STAN EN 9100:2018 standard.
- Audit principles and techniques per ISO 19011:2018.
- Audit planning and checklist preparation.
- Collection and management of evidence and findings.
- Managing corrective actions and continuous improvement.

Teaching Methodology

Theoretical lessons complemented with practical examples and audit simulations.

Evaluation Method

Final test with a 70% passing score required for certificate issuance.

Duration

45 minutes.

Certification

Certificate of completion as internal auditor ASD-STAN EN 9100:2018.

Expected Outcomes

Ability to plan and conduct internal audits compliant with aerospace standards, supporting company quality system improvement.

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: 99,00 € VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: EN9100_AUDINT_LA
- Document language: EN
- Generation date: 29/11/2026

- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
