1. Course identity, purpose and scope

The course "Auditor / Lead Auditor – Supply Chain Security Management System (ISO 28000)" offers specialized training on auditing supply chain security management systems according to ISO 28000. It covers the principles and requirements of the management system, audit methodologies aligned with ISO 19011:2018, and focuses on risk prevention and management such as sabotage, document fraud, and unauthorized access risks. Participants will develop competencies to plan, conduct, and report first, second, and third-party audits, emphasizing the effectiveness evaluation of security processes and KPI monitoring for continual improvement. The training includes practical case studies and simulations reflecting real-world scenarios involving ports, bonded warehouses, freight forwarders, and security service providers. This course is suitable for security professionals, internal auditors, consultants, and quality managers involved in supply chain security oversight and certification.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

ISO 28000 (Security management systems for the supply chain – Requirements) + ISO 19011:2018 (guidelines for auditing management systems) + ISO/IEC 17021-1:2015 (requirements for bodies providing audit and certification of management systems, for 2nd/3rd party audits)

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 60 min

- active final-exam bank: 200 questions
- final exam: 30 questions selected from the bank
- passing threshold: 70%

- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Learning Objectives

- Understand ISO 28000 requirements and principles for supply chain security
- Apply auditing guidelines per ISO 19011:2018
- Plan and conduct first, second, and third-party audits within supply chain contexts

Skills Acquired

- Risk analysis specific to supply chains
- Verification of security controls and KPI monitoring
- Effective audit reporting and improvement proposals

Target Audience

- Internal auditors and lead auditors
- Security and quality managers
- Consultants specializing in supply chain security

Prerequisites

- Basic knowledge of ISO management standards
- Experience in auditing or logistics security processes recommended

Course Content

- Introduction to ISO 28000 and supply chain security context
- Audit methodologies in line with ISO 19011:2018
- Threat and vulnerability analysis in supply chains
- Case studies and practical simulations
- Reporting techniques and follow-up actions

Teaching Methodology

Lectures combined with practical exercises based on real scenarios and knowledge checks

Evaluation Method

Final test with a passing score of 70%

Duration

60 minutes

Certification

Certificate of completion awarded

Expected Outcomes

Participants will be able to conduct effective ISO 28000 audits, identifying nonconformities and improvement opportunities in supply chain security.

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: 99,00 € VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: ISO28000_AUD_LA
- Document language: EN

- Generation date: 28/11/2026
- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
