1. Course identity, purpose and scope

The course "Auditor / Lead Auditor – ESG-SRG Sustainability Management Systems" is designed to train professionals in effectively conducting audits on sustainability management systems according to the SRG 88088:24 scheme. Participants will gain in-depth knowledge of ISO 19011:2018 guidelines and ISO/IEC 17021-1:2015 requirements, essential for planning, executing, and managing audits compliant with international standards. The program covers specific tools and methodologies such as checklist preparation, sampling techniques, evidence management, identification of nonconformities, corrective actions, and audit report drafting. This course is ideal for those seeking specialization in ESG-SRG sustainability, supporting organizations aiming to integrate and improve their environmental, social, and governance management systems. Through a practical and detailed approach, the course prepares participants to operate in accordance with recognized standards, promoting responsible and sustainable practices within businesses.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

SRG 88088:24 (ESG-SRG sustainability management system scheme) + ISO 19011:2018 (guidelines for auditing management systems) + ISO/IEC 17021-1:2015 (requirements for bodies providing audit and certification of management systems) + audit methodology: planning, checklists, sampling, evidence handling, nonconformities, corrective actions and audit reporting

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 60 min
- final exam: 30 questions selected from the bank
- passing threshold: 70%
- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Learning Objectives

Train auditors and lead auditors in conducting audits of sustainability management systems according to the ESG-SRG scheme.

Skills Acquired

- Knowledge of SRG 88088:24 scheme.
- Application of ISO 19011:2018 audit guidelines.
- Understanding ISO/IEC 17021-1:2015 requirements.
- Ability to plan and prepare audits.
- Use of checklists and sampling techniques.
- Evidence management and audit report writing.
- Handling nonconformities and corrective actions.

Target Audience

Professionals, consultants, management system managers, auditors, and anyone involved in ESG sustainability and auditing.

Prerequisites

Basic knowledge of management systems and auditing principles.

Curriculum

- Introduction to the ESG-SRG scheme.
- Relevant standards and regulations.
- Audit methodologies (planning, execution, reporting).
- Practical exercises on checklists and evidence handling.

Teaching Methodology

Theoretical lessons combined with case studies and practical simulations.

Assessment Method

Final test requiring a minimum pass rate of 70%.

Duration

60 minutes.

Certification

Certificate of completion outlining acquired competencies.

Expected Outcomes

Ability to conduct audits compliant with recognized standards in ESG-SRG, supporting continuous improvement processes.

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: 99,00 € VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: ESG_SRG_LA
- Document language: EN
- Generation date: 28/11/2026

- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
