1. Course identity, purpose and scope

The course "Workers Safety Training – Medium Risk" is designed to equip workers exposed to medium-level risks with the knowledge and skills needed to operate safely in compliance with current regulations. The 12-hour training is divided into 4 hours of general training and 8 hours of specific training, covering topics such as emergency management, identification and prevention of chemical, electrical, and physical risks, and the correct use of personal protective equipment (PPE). The training uses realistic practical cases from work environments like supermarkets, warehouses, industrial kitchens, and laboratories to ensure practical application of the knowledge gained. Participants will be able to recognize common hazards, adopt safe behaviors in various situations, and actively contribute to safer workplaces. The course requires passing a final assessment with at least 70% and mandates refresher training every five years to keep skills up to date.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

Legislative Decree 81/2008, art. 37 + State-Regions Agreement 17/04/2025 (Rep. Acts No. 59/CSR, Official Gazette No. 119 of 24/05/2025): 4h General Training + 8h Specific Training (medium risk) = 12h total; refresher every 5 years, minimum 6h

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 60 min

- active final-exam bank: 200 questions
- final exam: 30 questions selected from the bank
- passing threshold: 70%

- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Learning Objectives

- Provide general and specific knowledge about medium risk in the workplace
- Develop skills for risk prevention and management
- Promote safe and aware behaviors

Skills Acquired

- Identify and assess sector-specific risks
- Correct use of PPE
- Manage emergency situations
- Apply current regulations

Target Audience

- Workers exposed to medium-level risks as per legislation

Prerequisites

- No formal prerequisites required

Program

- General Training (4 hours): safety principles, rights and duties
- Specific Training (8 hours): medium risk hazards, practical cases, PPE use, emergencies

Teaching Methodology

- Lectures
- Case studies and simulations
- Multimedia materials

Assessment Method

- Final test requiring a 70% passing score

Duration

- 12 hours total (4 hours general + 8 hours specific)

Certification

- Certificate of completion compliant with Legislative Decree 81/2008

Expected Outcomes

- Improved risk awareness
- Prevention and response skills
- Regulatory compliance

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: On request VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: LAV_RM_LA
- Document language: EN

- Generation date: 29/11/2026
- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
