1. Course identity, purpose and scope

The course "Supervisor (Preposto) Training – pursuant to Legislative Decree 81/08" is designed for individuals who currently hold or aim to assume the role of supervisor within a company, providing specific knowledge on occupational health and safety in accordance with current regulations. The training covers the supervisor's responsibilities in daily safety management, risk identification, work organization, and appropriate conduct during emergencies. It follows the provisions of Legislative Decree 81/2008 and the State-Regions Agreement of April 17, 2025, ensuring up-to-date compliance with legislative changes. Topics include worker training and verification, shift and stress management, safety supervision in temporary sites with multiple contractors, and managing interference among contractors. Through detailed practical cases, the course prepares supervisors to identify and manage imminent dangers, coordinate activities in departments handling chemicals and moving machinery, and effectively handle emergencies. The course has a minimum duration of 12 hours, with a biennial refresher of at least 6 hours needed to maintain competencies. It suits team leaders, supervisors, and intermediate roles requiring in-depth workplace safety management skills.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

Legislative Decree 81/2008, art. 37 and art. 19 + State-Regions Agreement 17/04/2025 (Rep. Acts No. 59/CSR, Official Gazette No. 119 of 24/05/2025): minimum duration 12 hours; refresher every 2 years, minimum 6 hours

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 30 min
- active final-exam bank: 200 questions
- final exam: 30 questions selected from the bank
- passing threshold: 70%
- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Training Objectives

- Understand the role and responsibilities of the supervisor
- Apply occupational health and safety regulations
- Manage risks and safely coordinate work activities
- Handle emergencies and imminent danger situations

Skills Acquired

- Assess and control operational risks
- Communicate effectively with workers
- Supervise contexts with contractors and multiple companies
- Manage training and comprehension verification

Target Audience

- Supervisors and prepositioned personnel
- Team or department managers
- Workers tasked with control and coordination duties

Prerequisites

- Basic knowledge of occupational safety regulations

Program

- Regulatory framework and supervisor’s role
- Specific risks and preventive measures
- Communication, training, and verification
- Emergency management and operational coordination
- Practical cases and simulations

Teaching Methodology

- Lectures
- Analysis of real cases
- Practical exercises

Assessment Methods

- Multiple-choice test with a passing grade of 70%

Duration

- Minimum 12 hours

Certification

- Certificate of attendance and successful final test

Expected Outcomes

- Preparedness to perform the supervisor function in compliance with current legislation

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: On request VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: PREPOSTO_LA
- Document language: EN

- Generation date: 28/11/2026
- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
