1. Course identity, purpose and scope

The course "MOOC Platforms and Online Courses – Exam" provides a comprehensive overview of leading MOOC platforms and course marketplaces such as Coursera, Udemy, Udacity, and edX. It covers various instructional models including self-paced, cohort-based, and blended learning, along with typical course structures composed of lectures, quizzes, assignments, projects, and peer review. The program explores learning paths from foundational courses to specializations and nanodegrees/professional certificates, offering criteria for course selection based on goals, prerequisites, level, workload, language, and cost. Assessment methods, digital credentials, learning tools (LMS, forums, labs, notebooks), and study management through planning and progress tracking are examined. The course also addresses academic integrity and platform policies. Although short (60 minutes), the content is concentrated to prepare learners for the challenges of designing, managing, and assessing online learning pathways. The exam requires a minimum passing grade of 70% and a fee for the digital certificate issuance.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

Overview of MOOC platforms and course marketplaces (Coursera, Udemy, Udacity, edX) + learning models and delivery (self-paced, cohort-based, blended) + course structure (lectures, quizzes, assignments, projects, peer review) + paths from fundamentals (e.g., Harvard CS50) to specializations and nanodegree/professional certificates + selection criteria (goals, prerequisites, level, workload, language, cost) + assessment methods and digital credentials + learning tools (LMS, forums, labs, notebooks) + study management (planning, progress tracking) + academic integrity and platform policies

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 60 min
- active final-exam bank: 200 questions
- final exam: 30 questions selected from the bank
- passing threshold: 70%
- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Learning objectives

- Understand main MOOC platforms and course marketplaces
- Learn about instructional models and course structures
- Evaluate learning pathways and selection criteria
- Analyze assessment methods and learning tools
- Manage study plans and know academic integrity policies

Skills acquired

- Ability to design and evaluate online courses
- Understanding dynamics of MOOC platforms
- Effective management of digital learning pathways

Target audience

- Professionals and operators in digital training
- Teachers and instructional designers
- Students interested in MOOCs and online learning

Prerequisites

- Basic knowledge of e-learning systems and digital teaching

Program

- MOOC platforms and marketplaces (Coursera, Udemy, Udacity, edX)
- Learning models: self-paced, cohort-based, blended
- Course structure: lectures, quizzes, assignments, projects, peer review
- Learning pathways: fundamentals, specializations, certifications
- Course selection criteria

- Assessment methods and digital credentials
- Learning tools and study management
- Academic integrity and platform policies

Teaching methodology

- Guided individual study through educational materials
- Exercises and exam simulations

Assessment method

- Multiple-choice exam
- Passing threshold: 70%

Duration

- 60 minutes

Certification

- Digital certificate upon fee payment

Expected outcomes

- In-depth understanding of MOOC platforms
- Skills to select, manage and assess online courses in professional contexts

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: 150,00 € VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: MOOC_LA
- Document language: EN

- Generation date: 28/11/2026
- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
