1. Course identity, purpose and scope

The "Auditor/Lead Auditor ISO/IEC 27701 (PIMS – Privacy Information Management)" course provides specialized training for those wishing to gain expertise in auditing the Privacy Information Management System according to ISO/IEC 27701. Participants will learn the specific requirements for privacy management integrated with ISO/IEC 27001:2022, deepening audit methodologies in compliance with ISO 19011 and ISO/IEC 17021-1 standards. Practical case studies and audit evidence are analyzed, supporting correct implementation of PIMS policies, procedures, and objectives, with particular focus on complex environments such as data centers, corporate groups with international parent companies, SaaS platforms, and personal data processing within European regulations. The course is designed for professionals aiming to develop skills in assessment, planning, and conducting audits to ensure compliance and continuous improvement of organizational privacy management systems.

This extended technical dossier describes the pathway as published in CIWZ Academy on the issue date. It consolidates purpose, references, learning architecture, module contents, assessment system, passing criteria and certificate conditions. It does not replace the official texts of the standards, laws, guidelines or schemes referenced.

2. Normative, regulatory and technical references

ISO/IEC 27701; ISO/IEC 27001:2022; ISO 19011; ISO/IEC 17021-1

References are used as the learning and assessment framework within the limits of published content and available sources. For professional application, the official and current versions of the referenced documents always prevail.

3. Learning architecture and assessment system

- minimum tracked time: 60 min
- active final-exam bank: 200 questions
- final exam: 30 questions selected from the bank

- passing threshold: 70%
- Direct access to the final assessment under the published rules for the exam-only pathway.
- Exam assembly from the active course bank and scoring against the published pass threshold.
- Recording of the result and, where applicable, request for the final certificate.

4. Official catalogue technical information

Training Objectives

To train auditors and lead auditors capable of assessing and verifying the compliance and effectiveness of the Privacy Information Management System according to ISO/IEC 27701.

Skills Acquired

- In-depth understanding of ISO/IEC 27701 and its interaction with ISO/IEC 27001:2022
- Ability to plan and conduct PIMS audits
- Skills to identify risks, opportunities and privacy improvements
- Efficient use of evidence collection techniques and reporting

Target Audience

Information security professionals, privacy officers, consultants, IT and privacy auditors and lead auditors, compliance managers.

Prerequisites

Recommended knowledge of ISO/IEC 27001 and basic information security management.

Program

- Introduction to ISO/IEC 27701
- Privacy requirements and controls
- Alignment and integration with ISO/IEC 27001:2022
- Audit methodology ISO 19011 and ISO/IEC 17021-1
- PIMS audit planning
- Audit execution and management
- Case studies and exam question simulations

Teaching Method

Lectures, real case analysis, practical exercises and exam quiz simulation.

Evaluation Method

Final test with a pass mark of 70% correct answers.

Duration

60 minutes.

Certification

Digital certificate of attendance and exam passing, with a fee for formal certification.

Expected Outcomes

Advanced skills to conduct ISO/IEC 27701 audits and lead continuous improvement processes in privacy information management.

7. Assessment system, final exam and passing criteria

- The final assessment consists of 30 questions selected from the active course bank. The platform applies an anti-repetition logic for new attempts when the bank size allows it.
- Final question-bank size detected at generation time: 200 active questions.
- Published passing threshold for the course: 70%.
- Questions are intended to assess not only recall but also interpretation, application, evidence selection, scenario assessment and quality of decision-making, depending on the subject matter.

8. Tracking, learning continuity and session integrity

- Path status, completed modules and recorded time are managed server-side when the course uses the Academy learning mode.
- The platform allows the pathway to resume from the recorded point and retains the results of required checks.
- Assessment sessions may be subject to the integrity and proctoring controls enabled by the platform and described in the applicable usage rules.
- Technical and integrity events support assessment and do not replace professional judgement where human review is required.

9. Certificate, use and limitations

The CIWZ certificate, where provided by the pathway and requested after passing, records the result achieved in the stated CIWZ pathway or assessment. It does not automatically replace personnel certification, professional registration, statutory licence, legal qualification or credentials issued by third-party bodies where such requirements are imposed by the applicable scheme.

10. Commercial and tax conditions

- Price / certificate issuance: 99,00 € VAT excluded.
- UAE VAT is applied to UAE customers according to billing data and the applicable tax rules.
- Any specific commercial terms, agreements or corporate orders override the public price only when formally accepted by Certificato IWZ FZCO.

11. Dossier document control

- Document automatically generated by CIWZ Academy from the course data published at the time of the request.
- Course code: ISO27701_LA
- Document language: EN

- Generation date: 28/11/2026
- For normative and professional application, the current official sources and any applicable procedures/schemes prevail.
